CAREER OBJECTIVE

Aspiring software developer eager to grow and excel in a collaborative work environment. Seeking opportunities to apply my programming skills and contribute to the development of software solutions that make a positive impact. Committed to ongoing learning and open to new challenges to further develop my abilities and support the team's goals.

SKILLS

Programming Language
JavaScript, C#, C++, Java, SQL

Framework / Libraries
ReactJs/NextJs, NodeJs, ExpressJs, Asp.Net MVC

Database
MySql, MongoDB, PostgreSQL, SQL Server Management Studio

Tools
Git, Postman, Visual Studio, Power Point

PROJECTS

RoadSaints (e-commerce)   Link (Forntend)   Link (Backend)
- Proficiently used ReactJS and Tailwind CSS to create an intuitive and responsive user interface for RoadSaints' e-commerce platform.
- Collaborated to seamlessly integrate the front-end with ASP.NET Web API and SQL Server Management Studio, enhancing the platform's functionality and performance.

Nutrition and Workout System (API)   Link
- Led backend development using Nest.JS to create a robust API for the Nutrition and Workout System, ensuring high performance and scalability.
- Led backend development using Nest.JS to create a robust API for the Nutrition and Workout System, ensuring high performance and scalability.

Expense Tracker   Link (Source Code)   Live Link
- Designed and developed a user-friendly Expense Tracker using ReactJS and Material-UI, focusing on an intuitive interface.
- Integrated LocalStorage for secure data management and Speechly for voice control, enhancing the app's accessibility and functionality.
